

Practical solutions...at *every* level!

New Product Notice

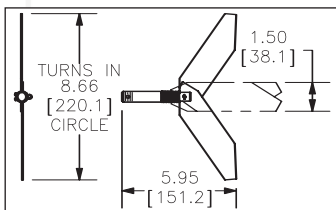

NEW!

2-Vane Collapsible Paddle

- ▼ Insertable from the outside of a bin or silo through a 1-1/4" NPT or 1-1/2" BSPT coupling.
- ▼ Can be used with Monitor's SafePoint® fail-safe and Model KA / KAX rotary paddle level switches.
- ▼ The "spring" action of the paddle also allows it to be removed from opening if needed.
- ▼ The 2-vane design and the 8.66" (220 mm) turning diameter allow the paddle to provide dependable level indication for average bulk density materials.
- ▼ This paddle assembly can be used with level switches that are mounted vertically or horizontally.
- ▼ 304 stainless steel construction.
- ▼ **Order / Part #: 1-4161**
