

APPROTEC RAN-LE

APPLIED PROCESS TECHNOLOGY

<u>Manufacturer</u>	<u>Equipment</u>
APEX BULK TECHNOLOGIES	A full-service engineering company with multiple engineering disciplines that offers Design-Build, Design-Procurement or Project Management of bulk material handling systems.
CAMCORP	Complete line of filters, bin vents, cyclones, bag dump stations, replacement bags, cartridges, cages.
CYCLONAIRE	Pneumatic conveying systems, dilute/semi-dense/dense phase. Rotary valves. Bulk bag unloading stations, bag dump stations. Controls. Weigh batching.
DELTA DUCON	Pneumatic conveying components and systems for severe duty (high temp/abrasive) applications. eXTreme feeders, SPIRA/flo pipe, PERMA/flo pipe and fittings for abrasive materials.
EASTERN INSTRUMENTS	CentriFlow Meter, mass flow measurement for flowable solids.
ERIEZ MAGNETICS	Permanent, electro and rare earth magnetic separation. Vibratory feeders & conveyors. Screening. Metal detection & x-ray systems. Metals conveying, lifting & handling. Minerals/materials processing.
FISHER-KLOSTERMAN	Cyclones, wet scrubbers, air classifiers and baghouses. Dust and fume collectors.
BUELL DIVISION / FKI, INC.	Aggregate and industrial classifiers.
THE FITZPATRICK COMPANY	Size reduction equipment & systems (lab scale & production size). Gentle milling & sieving. Comminutors. Dry granulation systems. Chilsonator roll compaction.
FRAZIER & SON	Sanitary Z-bucket stainless steel elevators. Sanitary closed channel frame, sanitary open tubular frame, custom infeed and discharges, wash down duty.
INTERSYSTEMS INC.	Automatic samplers.
MEYER & SONS	Rotary airlocks & feeders. Knife gates, Swing Gate Valves, PC Plug Diverter Valves. Blower packages. Screwveyor Pump (dry material injection pump into pneumatic conveying line).
MONITOR TECHNOLOGIES	Complete line of bulk solids level measuring products. Continuous level - guided wire radar (Flexar), ultrasonic & cable based smart sensor. Point level - Paddle wheel, RF capacitance & vibration.
NATIONAL BULK EQUIPMENT	Bulk bag fillers, bulk bag dischargers, bag handling systems. Drum & container dischargers. Tilt tables. Mixers. Flexible screw conveyors. Hoppers. Bolted silos.
NAVCO	Industrial External and Internal pneumatic, hydraulic, and electric piston and ball vibrators.
PEBCO	Slide gates, diverter valves, clam shell gates. High pressure, temperature & vacuum valves. Burner isolation valves. Coal & coke gates. Dustless loading spouts. Bulk loadout systems. Cleveland Cascade Chutes.
PELLETRON CORPORATION	DeDusting Equipment and Solutions, Plastic pellet and chemical powder conveying systems, High and Low Pressure rotary feeders, Diverter Valves, Pellbow elbows, Flow Enhancer.
SHICK USA	Dilute phase pneumatic conveying systems and components, dry and liquid ingredient batching systems.
TECWEIGH	Feeders: volumetric, gravimetric, loss-in-weight & weigh belt. Conveyor scales, control gates, bulk bag unloaders, weigh processors and equipment controls. PLM systems use agitation to volumetrically feed powders into liquid suspension.
THOMAS CONVEYOR CO.	Screw conveyors & feeders. Bucket elevators. Live bottom feeders. Hoppers and bins.
VENTILEX	Fluid bed dryers & coolers. Flash dryers. Continuous steam sterilization. Steam pasteurization.
WILLIAMS PATENT CRUSHER & PULVERIZER CO.	Crushers, shredders, hammermills, pulverizers. Air classifiers. Roller Mill & Impact Dryer Mill Systems and Disc screens.
