## Practical Tech Tip #4:

### RF Capacitance Level Sensors for Solids, Liquids and Slurries...

You may be currently using rf capacitance probes as level indicators in your powder / bulk solids storage vessels; However, did you know that those same style of rf capacitance probes can also be successfully used for level indication of many liquids, slurries and heavier foams.

To check if the rf capacitance probe is a fit for your application, please feel free to contact one

of Monitor's technical support representatives at [fred@monitortech.com](mailto:fred@monitortech.com) or 1-630-365-9403 / 1-800-601-5946 (US & CA). For more information on **TrueCap®** rf capacitance probes from Monitor Technologies, please [click here](#).
